WACO, TEXAS, SATURDAY, APRIL 7, 1917.

NUMBER 170

MAN IS JAILED UPON CHARGE OF CURSING WILSON

W. H. Mueller, Fertilizer
Salesman, Arrested by
Waco Police.

'FIGHTING WORD' USED?

Recruiting Sergeant Is Re-
strained After Argument
Precipitates Near Fight.

W. H. Mueller, rooming at the
Pennsylvania apartments, Streeter
Place, was arrested by Patrolman
Nimrod Sheppard early this morning.
He is being held for investigation.

Night Chief James complimented
Sheppard for making the arrest. The
specific charge against Mueller is that
he used vile and profane language in
speaking of the president of the
United States. The words Mueller is
said to have used are ordinarily con-
sidered the "fighting words" when ap-
plied by one man to another.

Affair at St. Charles Bar.
Mueller declares he was in the St.
Charles bar criticizing President Wil-
son's attitude in the German crisis
when he was interrupted by Recruit-
ing Sergeant Robinson of the United
States marine corps. He told Night
Chief James following his arrest that
he had previously thought the United
States was a free country, but that if
this is Russia or ruled under espionage
he would like to know under what
charge he was about to be thrown in
jail.

"There seems to be enough evidence
to justify the belief that you used the
language alleged to warrant my hold-
ing you without bond," said James. "If
I were convinced that you openly
cursed the president of the United
States at this time I would hold you
even if I knew I would lose my job
for it in the morning."

Fight Nearly Results.
Mueller declares it is ridiculous to
question his loyalty to the United
States flag.

Sergeant Robinson attempted to
fight Mueller at the saloon, but was
restrained. W. E. Thrash of Thos.
Goggin & Bros. and Cashier Stuart of
a bank at Lott, Texas, are witnesses to
the saloon conversations that may be
called upon in connection with the
Mueller investigation.

Mueller stated that he is engaged in
business for himself in promoting the
sale of plant fertilizers, but that the
present war conditions have seriously
affected his business.

Waco Negroes in Note Expressing Their Loyalty

Following in the footsteps of their
white leaders, the negroes of Waco are
banding together for the protection of
their country. A. Moore, a well known
old negro citizen of the city, acting as
agent for his associates, contributes
the following:

"To the Citizens of Waco, Texas, and
All the United States: We, the
negroes of Waco, want the government
to know that we love our flag and will
lay down our lives to obey and protect
our country. This is the sentiment of
the negro population of Waco."

John Bull's Black List to Be Revoked

By Associated Press.
Washington, April 6.—Great Britain
is understood to have under consid-
eration the withdrawal of its commer-
cial black list, insofar as it refers to
firms and individuals in this country.
It will now be the duty of the Amer-
ican government to see that nobody in
the United States gives aid to Ger-
many.

SET MARRIAGE RECORD.

By Associated Press.
Chicago, April 6.—Two hundred and
ninety marriage licenses were issued
today. The unprecedented number was
attributed to a false report that no
licenses would be issued after war was
declared.

INTERRED SHIP KNOWN TO WACO

Several Local People Once
on Board the "Bar-
barossa."

Mention in news dispatches of the
internment of the German steamer
Barbarossa on the Atlantic coast is of
special interest to several Wacoans.
This is the ship on which so many
American tourists sailed for home fol-
lowing the outbreak of the war in
1914. Among other Texas passengers
the following were listed from Waco:
Mrs. A. Link, Mrs. W. J. Geisler and
Mrs. Marie Berlick.

The German steamship Breslau,
which was sunk several months ago,
also carried a large number of Texas
passengers on its first trip after the
start of the big war. Sailing May 20,

Mary E. Anderson, Mrs. J. Kramer,
Mrs. Henry Schaefer and son, Henry.

throughout El Paso tonight that a re-
volt had taken place in Mexico City
and General Carranza had been impris-
oned, but government agents here said

nounced it absurd. The rumor is said
to have come from the local Villa
junta.

organizing of the Home Guard in
Waco, Baylor is not to be left out. A

definite plans have as yet been worked

FIRST WAR YEAR WILL COST U. S. \$3,500,000,000

Cabinet Meeting Yesterday
Discusses Finances of the
Country for Conflict.

BOND ISSUE IS OK'D

Loan to Allies for First Stage
of Struggle to Total
5 Billion.

By Associated Press.
Washington, April 6.—Methods of
financing the war with Germany and
of extending huge loans to the allies
constituted one of the chief subjects
considered at today's cabinet meet-
ing.

Indications are that the first year's
demands upon the financial resources
of the country will run far in excess
of the \$3,500,000,000 already asked of
congress and may approximate five
billion.

Bond issues already authorized also
were discussed. These total \$474,000,-
000, including the \$224,000,000 of Pan-
ama canal bonds authorized but not
issued. Announcement by Secretary
McAdoo as to the details of one or
more of these issues is expected
shortly.

Financial and other co-operation
with entente governments is one of the
chief topics under consideration by the
council of national defense and plans
looking to the issuance of loans to the
allies are expected soon to take defi-
nite form. Opinions as to the amount
of the first loan vary between \$500,-
000,000 and \$5,000,000,000.

An official deputation from Great
Britain, probably one from France and
possibly other allied governments will
visit the United States shortly to as-
sist in formulating a definite program
adequate to meet the most pressing
needs of the allies and at the same
time imposing as light a burden as
possible upon this country.

CUBA TO AID U. S. A.

Pres. Menocal Offers Mes-
sage and Solons Consider.

By Associated Press.
Havana, April 6.—At 5:50 this after-
noon the senate after reading Presi-
dent Menocal's message, appointed a
committee of five senators to meet a
like committee from the house of rep-
resentatives to consider the message
and report.

CUBANS MAY ACT.

By Associated Press.
New York, April 6.—There was no
doubt that the Cuban congress would
accede to President Menocal's request
for a war declaration, it was said by
J. V. Knight, director of the bureau,
who received from the president a copy
of his address to congress. Already
plans were well advanced for the mo-
bilization of Cuba's food resources, so
that the republic would be in a posi-
tion to help the United States to its
fullest extent.

Oklahoma Indians Will Fight Germany

By Associated Press.
Oklahoma City, Okla., April 6.—One
thousand Comanche Indians of Okla-
homa have offered their services to
President Wilson for the war with
Germany. If they are accepted they
will equip themselves, according to
word received tonight from the reser-
vation near Lawton. Several hundred
now are camping at Fort Sill awaiting
to be called to the colors.

Germans in Vera Cruz Not Excited Over War

By Associated Press.
Vera Cruz, April 6.—The small Ger-
man population in Vera Cruz, consist-
ing of about forty persons, today re-
ceived without any demonstration the
announcement of President Wilson's
proclamation against Germany.

Dallas May Become Camp for North Texas

Special to the News.
Dallas, April 6.—Should the con-
scription order for 500,000 men be-
tween the ages of 18 and 23 years go
into effect, there would be a military
camp established near Dallas to ac-
commodate 20,000 men. This would be
run in conjunction with the citizens'
military training camp, and instead of
leasing the site for the citizens' camp
for a month, it would be leased for two
years. Plans already are being made
to secure a lease on the property.
This would mean that a mobilization
camp for conscripted youths who
would be gathered from North Texas
would be established at Trinity
Heights, about three miles from the
city. Dallas would become the mili-
tary center for North Texas, and all
supplies and equipment and shipment
of troops would be made from and to
this city.

structions from Washington govern-
ment officers took into custody here

spiracies in this country.

wealthy realty dealer, was arrested to-
night by federal agents on a charge of

alleged to have sent to an eastern
manufacturing company regarding the
purchase of bombs.

shot and wounded here today by na-
tional guardsmen on duty at the Penn-
sylvania railroad tunnel under the De-
laware and Baritan canal and an ap-
proach to the Delaware river bridge of
the railroad company.

the life of President Wilson, Julius

settled by the test of Jonas Moyer,
who was granted his final papers here
today by Federal Judge Mayer. The
action will be contested by the govern-
ment.

Baldwin, Kan., April 6.—David Me-
lensky, who has been a shoemaker in
Baldwin for the last six months, was

sas City. The officers stated that they
have procured enough evidence to war-

ace \$50,000 drive mounted

ery that Postmaster C. H.
McCollum had made a startling gain
in the standings.

60 SPIES FALL INTO U. S. NETS AS WAR COMES

Attorney General Gregory
Issues Order for Arrests
Yesterday.

By Associated Press.
Washington, April 6.—The arrest of
sixty alleged ring leaders in German
plots, conspiracies and machinations
in the United States was ordered today
by Attorney General Gregory immedi-
ately after President Wilson had signed
the war resolution.

Every man whose arrest was ordered
is a German citizen, is known by the
department of justice, it was authori-
tatively stated, to have participated
actively in German intrigue in this
country and is regarded as a dangerous
person to be at large.

Bail will be refused in each case, it
was said, and the entire group will be
locked up unless there is a change in
present laws, for the duration of the
war.

Indications are that a number of
other arrests will be ordered within
the next few days.

The men are placed in three groups:
Those who have been convicted of
violation of American neutrality in
furthering German plots of various
sorts and are at liberty under bond
awaiting the action of higher courts;
those who have been indicted by fed-
eral grand juries for similar offenses
and are at liberty under bond awaiting
trial, and persons neither indicted nor
convicted, but whose activities have
been under long surveillance by the
secret service or the department's bu-
reau of investigation.

The department has under strict
surveillance thousands of German re-
servists in the United States,
who are suspected of having been con-
nected with plots already brought to
light, with plots abandoned before per-
fection, or who have been active in
German propaganda or because of their
accentuated leanings toward the Ger-
man government, are regarded as likely
to work against the interests of the
United States during the war.

All German Insurance Companies Unmolested

By Associated Press.
Washington, April 6.—German in-
surance companies in the United
States doing millions of dollars' worth
of business annually and with thou-
sands of American policyholders were
assured today in a proclamation by
President Wilson that their business
would not be interfered with in any
way during the war, however, they will
have no relations with their home of-
fice.

Crews of Three German Ships Are Interned

By Associated Press.
San Juan, Porto Rico, April 6.—The
crews of three German ships here to-
day were taken into custody by the
federal authorities. The sea cocks of
the K. D-3, a British collier, which
was captured by the Germans, were
opened by the crew before their arrest
and the ship is slowly sinking.

Native Born Germans Pledge Loyalty to U. S.

By Associated Press.
Dallas, April 6.—The Dallas Turn-
verein, with a membership of about
400 German-Americans, one-third of
whom were born in Germany, tonight
adopted resolution, pledging their loy-
alty "to our beloved president and our
fellow citizens in prosecuting to a suc-
cessful termination the present war."

PLAN BIG MEETING.
During the Baptist simultaneous
meetings to be conducted by seven
churches next week, several of the
churches will unite in a Monday ser-
vice at the Hippodrome theatre, to be
held from 12:15 to 1 o'clock each day.

100 GERMAN SHIPS SEIZED YESTERDAY BY U. S. OFFICERS

By Associated Press.
Washington, April 6.—Nearly one
hundred German merchant vessels in
American ports which were taken over
today by the treasury department,
probably will be utilized in the gov-
ernment service, but whether they will
be confiscated or paid for after the
war had not been announced tonight.

Anxious to observe treaty obliga-
tions strictly and move in accordance
with international law, officials will
examine precedents carefully before
deciding. A decision on the exact steps
to be taken is expected within a few
days.

Officials made it clear tonight that
in taking charge of the vessels the
government had acted with the pri-
mary purpose of preventing their crews
from destroying or further disabling
them. Having come under the protection
of the American government, how-
ever, they now occupy a status which
injects new features into the problem
of their disposition.

This problem officials regard as
largely one of policy. It is held that
the government has absolute treaty
rights to make use of the ships, though
it is uncertain they can be taken over
without reimbursing the German own-
ers.

In some quarters the position is
taken that ships of equal value to that
of American vessels sunk by German
submarines should be confiscated out-
right, but that it would be best to pay
for the others.

FRIDAY'S WAR SUMMARY

British Continue in Gains at
St. Quentin.

(By Associated Press.)
British efforts to reach the Cam-
bri-St. Quentin high road and to drive
a salient into the German lines be-
tween these two important points, out-
flanking both, continue successfully.
The Germans lost severely in the
operations between Arras and St.
Quentin during the last week, London
reports. Many German dead were found
by the advancing British troops.

French troops continue to recover
ground captured by the Germans to the
northwest of Rheims, where Her-
lin reports 827 French prisoners were
taken in the capture of French posi-
tions.

The German successes at the Toboly
bridgehead on the Stokhod in Vol-
hynia is reported by Berlin to have
resulted in the capture of 130 Russian
officers and 9500 men.

Turkish troops are reported in re-
treat in Mesopotamia before the Rus-
sian and British forces that joined
hands Monday on the left bank of the
Diala river.

sage to President Wilson:

ernment. Please enroll me as a pri-
vate whenever I am needed. Assign
me to any work that I can do until
called to the colors. I shall through
the Red Cross contribute to the com-
fort of soldiers in the hospitals and
through the Young Men's Christian as-
sociation aid in guarding the morals
of the men in camp."

ican war.

WAR CHALLENGE OF GERMANY IS ACCEPTED NOW

America Abandons Place as
Greatest Neutral and En-
ters Conflict.

ARMY-NAVY MOBILIZED

Nation's Activities Toward
Actual War Team Thru-
out the U. S. A.

By Associated Press.
Washington, April 6.—The United
States accepted Germany's challenge to
war and formally abandoned its place
as the greatest neutral of the world.

President Wilson at 1:18 o'clock (of-
ficial time) this afternoon signed the
resolution of congress declaring the
existence of a state of war and au-
thorizing and directing the chief execu-
tive to employ all the resources of the
nation to prosecute hostilities against
the German government to a success-
ful termination.

The act was without ceremony and
only in the presence of members of the
president's family. Word was flashed
immediately to all army and navy sta-
tions and to vessels at sea and orders
for further precautionary steps with-
held until the last moment were de-
spatched.

By proclamation the president an-
nounced the state of war, called upon
all citizens to manifest their loyalty
and assured Germans in this country
that they would be unmolested as long
as they behaved themselves. Orders
were issued soon afterward for the ar-
rest of sixty ringleaders in German
plots and intrigues.

All Branches Called.

Complete mobilization of the navy,
calling all reserves and militia to the
colors, was ordered by Secretary Dan-
iels as soon as the war resolution was
signed. The war department already
having taken virtually every step con-
templated before the raising of a real
war army is authorized, waited on
congress. Secretary Baker conferred
with Chairman Dent of the house mili-
tary committee and arranged to ap-
pear before the committee tomorrow
to discuss the general staff army plans
and consider the war budget of more
than three billions.

The president went over the pre-
paratory measures with the cabinet
discussing what has been accomplish-
ed and dwelling, it is understood, up-
on arrangements for co-operation with
entente allies against the common
enemy. Plans for co-operation are
to have taken very definite shape,
though there will be no announcement
on the subject for the present. The
seizure of German ships laid up in
American harbors was the subject of
interested comment and legal officers
of the government began consideration
of the question of whether the United
States can confiscate the ships outright
or must pay for them after the war.
In any event as soon as they can be
made seaworthy the fine merchant fleet
thus acquired will give America a mer-
chant marine that could not be dupli-
cated in several years and add more
than 600,000 tons to the tonnage avail-
able for the transportation of supplies
and munitions to the allies.

Both Houses Adjourn.

Both houses of congress have ad-
journed until Monday so that their
committees may be free tomorrow for
preliminary work on war legislation.
Word that King George and Presi-
dent Poincare had dispatched messages
of congratulation to the president was
received unofficially. Only unofficial
information also came concerning the
action of President Menocal of Cuba,
as recommending a declaration of war
against Germany by Cuba and the
growing sentiment for war in Brazil.

Foreign relationships of the United
States today underwent the greatest
change in the country's history, sweep-
ing away practically all the interna-
tional questions of the past two years
and substituting entirely new prob-
lems. As a result, the state depart-
ment is being entirely reorganized and
the great mass of routine which has
overwhelmed even the highest officials
is to be redistributed along new lines.
An enormous amount of work is ex-
pected in the near future with various
commissions, military, economic and
diplomatic, going back and forth be-
tween this country and the allies.

War Becomes Fact.

The first act by the department when
war became a fact was to prepare

FOOD SUPPLY IS PROBLEM TAKEN UP BY CABINET

Secretary Houston to Leave for St. Louis on Nationwide Plan.

By Associated Press.

Washington, April 6.—Food production and distribution for the war period were discussed at today's cabinet meeting and afterward Secretary Houston announced that he would leave immediately for St. Louis to confer with agricultural experts from the great cereal growing states of the middle West on the problem. As soon as possible he will hold a similar conference in the East.

The administration has made preparations for a nationwide campaign for increasing and conserving the food supply of the country to meet the war time demands and the necessity of forwarding larger amounts to the entente allies.

Before Secretary Houston's plans became known, the senate on motion of Senator Reed adopted a resolution requesting the department of agriculture to prepare comprehensive recommendations for the conservation of food supplies of the nation.

Late today the following statement was issued at the department of agriculture relative to Secretary Houston's trip:

"On Monday at 10 o'clock the secretary will hold a conference in St. Louis with the state commissioners of agriculture and the representatives of land grant colleges to consider agriculture problems in seventeen of the great cereal growing states from Ohio to Montana and from Wisconsin to Texas. Among the problems to be considered will be those of increasing the efficiency of production, ways of distribution and the creation of the requisite machinery.

"The secretary contemplates holding at an early date another conference in the East.

"The department of agriculture has been giving a great deal of attention to the agricultural situation and has been dealing with the matter of increasing efficiency of production and distribution. It has called itself particularly of the co-operative demonstration force."

OPPOSING VIEW GERMAN PRESS

Cologne Gazette Takes Issue With the Tageblatt of Berlin.

By Associated Press.

Amsterdam, April 6.—The Cologne Gazette takes issue with the statement of the Tageblatt of Berlin that it is to conclude a treaty with the United States providing for investigation of disagreements before declaring war, and try to find a way out of the present situation.

The Gazette argues that if such a treaty had been entered into the question before the committee in this instance would be whether Germany could conduct unrestricted submarine warfare against the entente. Pending examination of this question this newspaper says Germany would have had to suspend submarine warfare, but Germany would never have consented to that. Nor would the United States calmly wait the findings of the commission while American ships were being sunk and American lives lost.

Old Glory Now Flies for Queen Lilinokatni

Honolulu, April 6.—The United States flag was hoisted today for the first time over the residence of former Queen Lilinokatni. By this sign the ex-queen, whose bitterness towards the United States since the annexation of the islands territory has been gradually mellowing, expressed her sympathy with America in its martial stand against Germany.

Reform Movement Is Given Visible Impetus, Say Copenhagen Reports.

By Associated Press.

Copenhagen, via London, April 6.—America's entry into the war evidently has had an immediate and strong effect upon the reform movement in Germany.

The conviction that the instant militarization of the constitution without waiting for the end of the war, is necessary as a military and political measure to counteract "the tempest of the world's public opinion," says the Vorwarts puts it, is evidently gaining ground in all except reactionary circles.

Demanding Peace.

The demand that Germany follow the example of Austria-Hungary and declare itself in favor of a peace without annexation is heard from moderate liberal as well as from socialist quarters. This demand no longer represents alone the belief of many thinking persons that annexation, except for slight frontier alterations, would be against the real interests of Germany, but also the realization that after the United States joined the ranks of the enemy the time had passed when Germany could hope to dictate terms of peace.

The Associated Press correspondent heard this view from various sides in Germany at the time of the rupture of relations between the United States and Germany, namely, that if the United States decided to take an active part in the war, Germany could no longer hope to gain a victory, but after holding out for a year and a half or two years, must inevitably submit to the economic pressure of the blockade.

Call U. S. "The Enemy."

Significant evidence of this change in sentiment is given by yesterday's leader in the Vorwarts on "America—the Enemy."

The Vorwarts, which only a few days ago characterized the reform movement as a question of secondary importance to that of securing peace with Russia, and attracted wide attention by an article arguing that even the socialists were not working against Germany's monarchist government, now swings around and declares that the adoption of the antiquated constitutional forms in Germany to those prevalent in the rest of the civilized world is the vital and burning question of the hour. The newspaper says:

Respect for America.

"The German nation is fighting for the defense of its house and hearts and not for antiquated conditions whose reforms long has been promised and which must disappear immediately in order to counteract the tempest of the world's public opinion based on the belief that Germany is a tyrant and despotic conqueror and that its enemies are harbingers of liberty."

The Vorwarts speaks of the great strength of America as a peacemaking power and points out that without its co-operation at the peace conference, it would be impossible to secure the possibilities for economic development which Germany will so surely need after the war. It concludes by saying that the most urgent need of the hour is the organization of the national defense under the auspices of sweeping reforms and the clearest and most definite announcement of the nation's intention to conduct the war not for conquest, but only to foil the hostile designs of annexation and to end it immediately when the enemy denounces such designs.

Wis. Voters Fail to Back President Wilson

By Associated Press.

Monroe, Wis., April 6.—Monroe voters went on record today ten to one as opposed to a declaration of war by congress under present conditions. A total of 1649 votes were cast, 95 favoring a declaration of war and 954 opposing such action by congress.

Judge J. M. Becker, father of the referendum, tonight wired the results to Senator La Follette and Congressman John M. Nelson.

Don't be discouraged Resinol Soap will clear your skin

Many and many a girl has a clear, healthy complexion today because some friend came to her with that sound advice. Resinol Soap not only is delightful cleansing and refreshing, but its daily use reduces the tendency to pimples, offsets many ill-effects of cosmetics, and gives nature the chance she needs to make red, rough skins white and soft.

If the skin is in bad shape, through neglect or improper treatment, a little Resinol Soap should at first be used with the Resinol Soap, to hasten the return to normal conditions. Resinol Soap and Resinol Ointment are sold by all druggists.

This Religious Sect Contains No Valor

By Associated Press.

Washington, April 6.—Rev. M. M. Just of Fairview, Okla., general secretary of the Mennonite general conference, presented to Chairman Dent of the house military committee today the opposition of the 70,000 Mennonites in the United States to service as combatants in war. Mr. Dent said he thought the general staff bill for raising a war army was sufficiently specific in exempting from service persons of a recognized religious sect whose creed is opposed to war.

San Antonio, April 6.—Woodrow Wilson Tuesday heard the united voice of local Elksdom in support of his official acts as president of the United States. At a called session of the order, the Elks adopted resolutions approving any course which Wilson and congress may take during the present days of approaching war.

Teddy Stops at Capital Didn't See the President

Washington, April 6.—Colonel Roosevelt on his way home from Florida made a flying trip to the white house between trains today to congratulate President Wilson on his address to congress. When he found the president was at work in the executive offices he would not send in his name, but left his card with the chief usher and rushed back to the railway station.

GERMAN ABUSE FOLLOWS SPEECH

Berlin Paper Declares That Americans Think of Nothing But Gold.

By Associated Press.

London, April 6.—Reuter's Amsterdam correspondent says President Wilson's address to congress has been answered in the German press by a storm of abuse. He quotes the Rheinische Westfälische Zeitung as saying:

"Beyond striving for gold the Americans have no ideal. They think everything can be achieved by gold. Their Megalomania makes a grotesque impression on us Germans."

The article concludes by giving reasons for believing that the collapse of Germany's enemies is imminent. It says:

"Great events are pending in the west. The grey spectre of starvation stretches its claws over England. Chaos reigns in Russia. It is too late for the United States to change the coming decision."

WAR CHALLENGE OF GERMANY IS ACCEPTED NOW

copies of the war resolution and proclamation for all the foreign missions here for immediate transmission to their governments. Cables were sent to American missions abroad and full mail dispatches prepared to go forward at once.

Instructions prepared several days ago were sent to the treasury department to cause transmitting details of the armament and armed guards on merchantmen entering American harbors on the ground that henceforth no restrictions will be placed on such vessels.

Announcement will be made shortly that allied war vessels have been given free admission to American harbors. It is probable, however, that with the seizure of German shipping here and the enlistment of the American navy in the patrol forces the entente will withdraw virtually all war craft from this side of the Atlantic.

Negotiations are now practically completed for the admittance of American armed ships into neutral European harbors. All European neutrals are expected to receive them except possibly Holland.

Amusements

OTIS SKINNER AT HIS BEST.

Otis Skinner again demonstrated his ability to charm, captivate and virtually cast a spell over any audience no matter how critical, last night at the Auditorium theatre in "Mister Antonio." Those who were so unfortunate as to be unable to attend the performance missed the best theatrical attraction presented in Waco this season.

In "Mister Antonio," a poor unfortunate, like the man in the "Good Samaritan" allegory, wandered down into the wicked city and fell among thieves. In this instance Broadway barroom thieves. They stripped him of his raiment and for good measure took his watch and chain. Along comes the good Samaritan, in person, Mister Antonio, who renders succor to the victim by giving him an overcoat, a hat and a dollar to wire home for funds. "Mister Antonio's" poor friend turns out to be a man of some importance in his own home town, and Antonio receives a reward for the compassion he took upon him. The play contains a good moral and gives one something worth while to think about.

Otis Skinner at his best, playing the part of "Mister Antonio," capably supported by a remarkable company and backed by an honest-to-goodness plot set off with appropriate scenery, makes "Mister Antonio" a big town attraction.

"ENVY" AT THE HIPPODROME.

Something new in motion pictures is the McClure series of the Seven Deadly Sins, "Envy," "Pride," "Pasion," "Greed," "Wrath," "Sloth," and "The Seventh Sin." The first of these pictures, each of which is five reels and tells a complete and separate story, is "Envy," and with Ann Murdock as the star will show at the Hippodrome theatre today only. Miss Murdock is famous on the speaking stage as a Frohman star, and on the screen has appeared in two pictures before this one. She is a dainty, vivacious, little actress, and just such a role does she play in this picture, being cast as Betty Howard, the little actress of unquestioned popularity who is envied by the little country girl, Eve Leslie. Shirley Mason and George Le Guere, two very popular players, are featured throughout the series, as typical of two young people who must fight their several battles and try their own souls.

"Envy" tells the wonderful story of Eve's longing to be like the wonderful actress, popular and fashionable and seemingly without a care in the world. But when little Eve, an innocent little country girl, tries to follow the life that Betty Howard leads, she comes to realize after ugly experiences that her own life is the one, after all, to be envied.

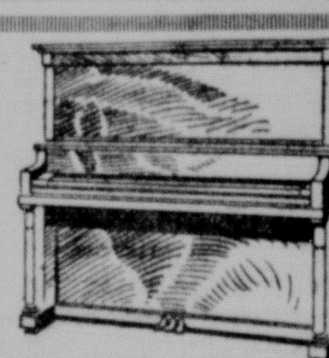

FINAL OFFERING OF EUTERPEANS.

The last concert of the series offered by the Euterpean club will be that of Percy Grainger, the great Australian pianist, who appears at the Auditorium Monday night, April 23. Mr. Grainger is the sensation of the day. His first concert astonished New York. The Evening Post saluted him with "Hats off to a Genius." In fact, all the morning papers were so complimentary that Grainger's debut here was favorably compared with that of Paderewski. His first concert tour was planned immediately. His boyish, exhilarating good humor, his striking appearance, which caused the newspapers to characterize him as "a young Siegfried," his masterful technique, but above all his amazing personality, made the tour remarkable. This in a year, too, when pianists were as much on order of the day as traffic policemen on Fifth avenue.

SOLDIER FILM AT QUEEN THEATRE.

"German Invasion" is the title of an illustrated lecture that will be given in the Queen today. E. E. Germain, the lecturer, is a Nebraskan, who has been with the soldiers along the border, having charge of the army Young Men's Christian Association work. With him are J. E. Fleming of the Illinois Guard, trumpeter, and H. E. Krueger of the Kansas guard, photographer. Now that recruiting must be stimulated the management of the picture is putting the film to a patriotic use.

The lecture will cover every phase of army life as seen by a soldier, and the views will include scenes and happenings of interest taken while these three young men were connected with the guard. Pictures will be shown of the every-day life of the soldier, scenes in the Mexican rebel army and views along the Rio Grande, the old Franciscan missions of South Texas, views taken during the divisional hike from San Antonio to Austin and return, the rifle range at Leon Springs, Mexican life, the work of the Red Cross and of the Army Young Men's Christian association, the Lewis machine gun

Mother, Feed Your Child!

Are You Sure You Give Your Child the Right Food and Enough of It?
By MARY E. WALTER.

GROWING children are built mainly from food! No child can grow right without right food in right quantities. So the most vital thing a mother can know is how and what to feed her child to bring it to correct weight and weight and measurements for its age. Any mother who has not the information for relation of weight, measurements, and age, may have the table by applying to this column.
Mother's milk is the best food for babies, because it has the necessary proportions of fat, protein, sugar, salts and water for growth of body cells, bones, nerves, fat and for body heat. The water helps digestion and elimination. For the same reasons cow's milk is the most important part of a child's diet after weaning, up to ten years old. There are many ways of making milk tasty and digestible for the child who refuses it.

The same elements as in milk—protein, fat, sugar, salts and water—must be contained in the diet after weaning, represented by the simplest and most easily digested foods. The solid foods in these classes are too well known to dwell on—protein found in milk; cheese, lean meat, fish and some vegetables; carbohydrates, or starches and sugars, in milk, cereals, bread, vegetables and fruits; fat, in butter, cream and oil.

The correct daily proportions of these foods for child-growth are some sixty grams of protein, forty of fat and 250 of carbohydrates. There are several recent books giving information on feeding, the names of which I will send the mother who requests them. Some of these are United States government pamphlets listed in a "Foods and Cooking" list to be had free from the superintendent of documents at Washington.

No matter how many times it is repeated it cannot be said too often. Mothers, feed your children! Feed them enough regardless of the sacrifice! Mainly by right feeding may the child be brought to the height, health, full stature and virile nerve that resist disease and help him outgrow organic trouble. Statistics prove that most mortality of the first year and early diseases are due to disorders of nutrition. The effects of bad feeding may not be seen all at once, but may leave your child, when grown, to regret he is alive.

So, mothers, feed your children not just "food," but right food in right proportions! Feed them enough! Feed them generous variety! Do not overfeed them! But by all means, feed them!

W. J. MITCHELL WINS

Takes Prizes in Adwriting
Contest Held Last Night.

W. J. Mitchell carried off first honors in two ad-writing contests at last night's meeting of the Waco Ad-writers league. The first award was for the Amicable Printery copy, the second award being in the Southwestern Engraving company contest. The first prize captured by Mr. Mitchell in the latter was a five-dollar gold piece set in an emblematic shield of the United States, all enclosed in a neat gold frame. The embellishments were the handiwork of C. K. Chambers, local manager of the Southwestern Engraving company. The next contest will be for a newspaper display ad for the Waco Electrical company.

PLAN CONTATA.

"Life Everlasting," by H. W. Petrie has been selected by the choir of the Fifth Street Methodist church as the cantata to be sung Sunday night as a special Easter service. Mrs. T. M. Bishop will have charge of the music. In addition to the cantata the social service committee of the church has arranged for Miss Myrtle Thompson of the expression department of Baylor university, to give a special Easter reading. The services will start promptly at 8 o'clock.

CLAY STREET REVIVAL.

The Clay Street Baptist revival is growing each night and people are attending from nearby towns. A sermon dealing with the warring condition of the country was delivered on Thursday night.

THE GIRL'S JOB

Beyond Your Income.
By JESSIE ROBERTS.

WARNING notes are sounded from time to time telling us all to look out for changes after the war, when business settles back to different conditions, and when work may be harder to find than now, and salaries lower.
I don't suppose you business girls are living beyond your incomes, not actually. That is to say, you aren't running into debt, aren't spending more than you make.
But still you are really living beyond your incomes if you spend all you get—if you are not laying up against hard times.
An income must be looked at as something more than this year's income; it is what you are likely to make in several years that must be taken into consideration.

The girl who is not putting aside a sum out of what she makes for possible non-employment, or for a reduction in salary, or for illness, is living beyond her income. Don't you be that girl.

It is so easy to believe that because things are going well one year they are sure to go on as well or better. But they may not. Act on the assumption that they may not. Don't spend all you make, for you are running the risk of debt and trouble and anxious days if you do.

Don't be dazzled by sudden prosperity or easy work. It may last, of course. But to count surely on its doing so is to live beyond your income, and that is the silliest and riskiest thing any one can do.

When you pick up a pretty girl's handkerchief it is permissible to wonder how she came to drop it.

Pretty Mothers

No woman, in the joy of coming motherhood, should neglect to prepare her system for the ordeal she is to undergo. Experienced mothers say that it is much better to keep your health and good looks during the period of expectancy than try to regain them afterwards.
"Mother's Friend" is a preparation for just this purpose. By its use the muscles of the abdomen become pliant; the strain on the cords and ligaments is lessened;

the breasts are kept in good condition, and great comfort is had throughout all the period.
Thousands of happy mothers say that "Mother's Friend" is the greatest aid they know to relieve the pain and distress at childbirth. Secure a bottle of "Mother's Friend" from your druggist now. The complete directions are to be had with every bottle. Write for a special book for the expectant mother. Address Bradford Regulator Co., Dept. L, 240 Atlanta, Ga.

SPLITTING UP AFRICA.

VICTORY for the allies will cost
Germany more than 1,000,000
square miles of colonial territory, in-
habited by more than 15,000,000 people.
If the allies hold to their jointly an-
nounced intention of refusing to return
the African, Asiatic and Pacific posses-
sions of the German empire.

The greatest of these losses, on the
basis of area and population, will be
Germany's African possessions, which,
before 1914, contained 320,000 square
miles and more than 13,000,000 inhab-
itants—colonies more than four times
as large as the entire German empire
in Europe.

Kaio Chau, now held by Japan, was
the most important German colony in a
commercial sense, though the area
was only 200 square miles, but the Af-
rican possessions of the Teutons of-
fered them the greatest place in the
sun.

It was Karl von der Decken, the
German explorer, writing from the
Julia river in Northeast Africa in 1864,
who first aroused Germany's wish for
colonial expansion. He suggested that
Mombasa be purchased from the sul-
tan. But it was only after the Franco-
Prussian war that Germany really be-
gan to cast about seriously for a foot-
hold in the remote parts of the globe.
Bismarck esteemed colonial enterprises
very lightly, but by 1884 popular opin-
ion caused him to take the initiative.
By 1886 he had been instrumental in
founding the German colonies of To-
go, Cameroon, Southwest Africa and
German Southeast Africa, besides Wil-
helm's Land, and the Solomon and
Marshall islands and the Bismarck
archipelago.

Today Japan holds Kaio Chau and
the Marshall islands, New Zealand and
Australia have Wilhelm's Land, the
Solomons and the Bismarck islands,
and France, Portugal and England
have announced that Germany's Afri-
can possessions will be divided
amongst themselves. If the allies win
Germany's loss may result in the real-
ization of the dream of Cecil Rhodes
of a Cape-to-Cairo railway and a
great British-African empire.

"DER TAG!"

BY WAY of reply to the oft-re-
peated German statement that
England caused the war, the Outlook
reprints a letter published six years
ago, in which the writer said: "Hatred
of England is taught as a cult in the
German schools; there is a kind of
catechism on this subject in the fol-
lowing style: Q. What country must
we hate? A. England. Q. What coun-
try must be conquered? A. England.
Q. Who must conquer England? A.
Germany. Almost every German child
has a money-box with a picture of a
ship outside in which he or she is
obliged to collect pennies from all his
or her friends. What for? 'To build
ships to conquer England.' And yet
our only cry as a nation is, 'A little
more sleep, a little more slumber, a
little more folding of the hands to
sleep.'"

Your Money at Work
Practical Old-Age Insurance.
By JOHN M. OSKISON.

TAKE the case of John Doe. He
is 25 years old. He is about to
be married, and sits down to think
seriously of the future.

One of his first conclusions is that
after he is 65 years old he probably
won't be earning much, if anything.
It is logical, therefore, to plan some
way of making himself independent of
his own efforts when he reaches that
age. How?

He has forty years in which to save
and provide an income beginning on
his 65th birthday. What program of
saving ought he to follow in those
forty years?

At this point I wish to introduce to
John Doe a friend of mine. This
friend has something interesting to

offer. What to hear it? John nods
his head.

Well, it is this: If John Doe will
give my friend \$1.95 every month from
now until he is 65 years old the money
will be so used that John may cease
to make the payments at the age of
65 and begin to draw on each birthday
the sum of \$200.

Observe, says my friend, the ex-
tremely low cost of this annuity of-
fered to John Doe. His total payments
during the forty years will amount to
only \$980—and my friend is certain
that even this sum will be materially
reduced by dividends from time to
time.

To purchase an annuity of \$600 a
year (and John Doe would feel fairly
comfortable with that income assured
at 65) John would pay my friend \$5.85
a month, less whatever dividends were
credited to his contract from time to
time.

If John Doe wanted his annuity to
begin at the age of 60 my friend says
he would have to pay \$2.99 a month
for a \$200-a-year income.

Under either contract, if John Doe
should die before reaching the speci-
fied age, his family would be paid
\$250.

If he had to surrender either con-
tract, it would have a substantial cash
value any time after three months
from date of making.

Doesn't that sound attractive? You
ask who is this friend of mine who
offers such good annuity contracts. Is
he doing a big business?

That friend is the state of Massa-
chusetts, operating through its sav-
ings bank life insurance system. No,
his business is not large, and it needs
pushing. Probably you know some-
body in Massachusetts who would like
to help popularize it. Perhaps you
would like to have your own state
adopt some such system.

The Real Enemies
By DR. FRANK CRANE.

NOW that Russia has come to her
senses and realized what her real
enemies are (their rulers and not
the German people), let Germany do
likewise and we will have no more
war.

For the people of Russia have noth-
ing against the people of Germany. If
it were not for the group of mischief
makers, egotistic and headstrong
kings, nobles and diplomats, who ride
upon the backs of the people, there
would be no conflict.

If the countries of Europe were gov-
erned by the people and for the people
no nation would think of taking up
arms against another any more than
Ohio would think of attacking Illinois.

Democracy has no use for war, ex-
cept to protect itself from the vicious
machinations of autocracy.

The people of Europe shooting at
each other are a lot of hypnotized vic-
tims. They are shooting at the wrong
mark. Let them turn their guns on
the kaisers, czars and statesmen who
are ruining them.

The Germans are an intelligent folk.
Why can they not see the thing that
is leading them to destruction? It is
not England; it is Junkerdom, that is
their enemy.

The English, French and Russian
farmers, shopkeepers and clerks who
have left their occupations and gone
to war would all be glad to go home
and about their business if it were not
for Junkerism. They don't hate the
German people. They would be glad
to co-operate with them and see them
prosper. No people hates another
people. It's the infernal dynasties,
and the kind of politics that gathers
around dynasties, that cause all the
trouble.

If Europe would ship all her kings,
emperors, crown princes, dukes and
magnificences to the South Sea islands,
and govern her nations for the benefit
of the people in them, there would be
the greatest peace and universal
European solace the world has ever
seen.

The revolution in Russia almost
pays for the war. Now if Germany
and Austria would only follow suit!

Germany, England, all the nations
say they do not want to conclude the
war except upon such terms as shall
insure that their soldiers shall not
have died in vain.

If any one country is victorious over
another they do die in vain. But if
the people shall triumph over auto-
cracy, then they shall not have died
in vain.

Democracy is worth the price.

Little Stories for Bedtime

Bobby Coon Finds a Home at Last.

By THORNTON W. BURGESS.

WHEN Buster Bear started to
chase Peter Rabbit it gave
Bobby Coon a chance he
was not slow in accepting. Buster had
given Bobby a terrible shaking up in
the top of that young tree, but in spite
of that he had his wits about him.
He needed them, and he knew he need-
ed them. So the very instant Buster
started after Peter Rabbit, down from
the tree scrambled Bobby Coon.
Never in all his life had he scam-
bled down a tree faster. He knew that
Buster would not follow Peter far, and
so he, Bobby, had no time to lose. He
would get just as far from that place
as he could before Buster should re-
turn.

So, while Peter Rabbit was running
littery-littery-lyp, in one direction
as fast as ever he could, Bobby Coon
was running in the opposite direction,
and his back feet were moving aston-
ishingly fast. He didn't know where
he was going, but he was on his way
somewhere, anywhere, to get out of
the neighborhood of Buster Bear. So
Bobby took little heed of where he
was going, but ran until he was too
tired to run any more. His heart was
beating thump-thump-thump-thump,
thump-thump-thump, and he was
breathing so hard that every breath
was a gasp and hurt. He just had
to stop. He couldn't run another step.
As he puffed and puffed, trying to
get air enough into his poor lungs, he
listened for sounds of Buster Bear.
Bobby's ears are very keen, but keen
as they are they cannot hear what

A Hygienic Testament

By H. ADDINGTON BRUCE.

THE Journal of the American Med-
ical association has printed a doc-
ument of unusual public interest
and helpfulness. It is described as a
"hygienic testament," and was found
among the papers of the late Profes-
sor Czerny.

So admirably does it sum up rules
for health and efficient living that I
want my readers to gain knowledge of
it. Here, therefore, it is reprinted, al-
though in somewhat shortened form:

Life is not the greatest gift. Human
ideals stand higher. A belief in the fu-
ture, the hope that man will no longer
combat his fellows because of differ-
ences of opinion, the fulfillment of true
Christian love, will create a heaven on
earth.

However, life is the only real posses-
sion of man. Money and lands are
passing possessions. Accomplishment
ceases with death.

It is therefore your duty to conserve
body and soul, and to avoid all things
which may endanger or shorten the
duration of this precious gift.

Not every one is blessed with a
cheerful disposition, good will toward
others, and ripe judgment in meeting
the little annoyances of life. Only he
who succeeds in winning these virtues
for himself will truly enjoy life.

Look well after the health of body
and mind. Divide the day wisely into
hours of work and recreation. Eat
good, wholesome food. Be clean in
every respect, and live in a dry, sunny,
well ventilated habitation.

Work eight hours, sleep eight hours.
Two hours should be devoted to the
three meals of the day; two hours for
art and lectures, two hours for the
family, your friends, and the public;
two hours for a sane sport (walking,
riding, driving, rowing, swimming,
gymnastics, and play in the open air.)

Moderation in eating and drinking
should be practiced. An exclusively
vegetable diet, in quantities sufficient
for the motor activity of the stomach
and intestines, does not contain enough
calories. Therefore albumin and fat
in easily digestible form (meat, fish,
eggs, butter, milk and cheese) should
be added to a vegetable diet.

Alcohol (beer, wine, whiskey, liq-
uors), coffee, tea and tobacco have
no nutritive value. They are all poi-
sons whose toxic effects have been
mitigated by habituation, but in im-
moderate quantities they shorten the
life of the predisposed individual.

Tobacco and alcohol disrupt the
nervous system and lead to arterio-
sclerosis. Coffee and tea disturb sleep
and should not be imbibed after 4
o'clock in the afternoon.

Children must be taught cleanliness.
They should be given at least one
sponge bath with cold water each day,
should brush their teeth twice a day,
and likewise cleanse the mouth and
wash the face and hands. A full bath
should be taken weekly.

TRY A NEWS WANT AD.

New York Day By Day

By O. O. McINTYRE.

New York, April 6.—The loyalty of
Michael Fitzpatrick has rarely been
equalled. So heartfelt was his ap-
preciation of a friend who has long
since gone where the woodbine twined
that he has been sent to prison so
that he may forget. The court has
given him one month in which to blurr
his memory.

According to Mrs. Elsie Dixon, who
lives in the Bronx, Mr. Fitzpatrick is
the most sad eyed boarder she has
ever had to contend with. He weeps
almost continuously and the principal
element in his grief is the fact that her
husband, one of the finest men Mr.
Fitzpatrick ever knew, passed on many
years ago.

On the day in particular Mr. Fitz-
patrick in a frenzy of grief broke prac-
tically all of Mrs. Dixon's furniture and
threw it out of the windows. He was
fearfully upset—fearfully.

Mrs. Dixon had him taken to court
and sentence was suspended. The
next day he was brought back again
and it developed that upon leaving
court he drank a pint or so of merry
mullage and recited a dozen toasts
to his departed friend. Then he re-
turned to Mrs. Dixon's to remove his
trunk. He had removed two doors
and a carpet when the police arrived.

He told the magistrate, between sobs,
that all of his friends seemed to be
dying off and that he could never re-
cover from the loss of Mr. Dixon as a
comrade.

"I lose myself in grief when I think
of him and I don't care what I break,"
he said.

So the weeping Mr. Fitzpatrick was
taken to where—when grief overcomes
him—he can break cobbles with a
sledge.

A member of the New York board
of education in discussing vocational
and non-vocational education asks if
the blacksmith will be expected to
associate with the teacher of Latin
and Greek. The question was put to
Ben Jansen, the song writer, and he
declared for his part he could not see
why the blacksmith would object if
the teachers of Latin and Greek be-
haved themselves.

O-O-H BOY! HEAR HUMBURG'S PLANS FOR BIG CIRCUS

Greatest Attraction of Season Declares Local Showcuss Press Agent.

Hey Reuben! The "Big Tops" are coming to town. The steam callopo will soon be whistling its way down Austin at the head of a mile-long parade composed of a marvelous collection of never-before-seen wild animals and minstrelsy galore.

"Ben She and Ben Him" will be there; Reggie, the elephant with the brain wrinkles, ridden by Omar, the beautiful Oriental dancer, will blow red lemonade through his trunk for the benefit of thirsty kids. Watch for April 17, the red latter day of the "66 Ranch and Humburg Circus." The greatest attraction Waco will see this season.

A regular three-ring circus in burlesque, featuring such wonderful attractions as "Prof. Slobinsky," and his infamous band of musical musicians; "Mag. Cleo and Gus," the three entertainers de luxe, in something astonishing; "Mam'zelle De Horseradish," the most beautiful alive, trunk and last local tour; sideshows galore and a score of other features too numerous to mention.

The Waco Ad club is responsible for this wonderful attraction coming to town and the proceeds derived from two performances, matinee and night, will be used to advertise Waco in a national way.

SUFFERED FOR FOUR YEARS

Tried Many Different Medicines, but Finally Found Relief in Cardui, Writes Texas Lady.

Palestine, Texas.—Mrs. Annie Wyrrill of this place writes: "I suffered four years with female trouble. I tried all kinds of different medicines that were recommended me, but nothing gave me relief until I took Cardui."

"I suffered with . . . trouble something awful. My back hurt me so bad I could not turn in the bed. . . I was so weak I could hardly live, much less get around. If I tried to get about and do my work, I would begin to . . . and have fainting spells. . . I got worse all the time and weaker, too. . ."

"My husband was worried to death and said something must be done. Just at that time a newsboy was passing the house. My husband went out and bought a paper from him. The first thing his eyes rested on was the Cardui ad. He immediately went to town and got a bottle. . . By the time I had taken a bottle and a half I could be on my feet. . . When I was on my fourth bottle I could do anything I wanted to and go anywhere. From that day to this I have never had any more trouble. I am entirely well."

Cardui, the relieve many of the conditions arising from female weakness. Try it, today. At your druggist's.

ACCESSORY MEN MET YESTERDAY

Auto Dealers in Session at Raleigh Hotel on Trade Business.

A busy business session and luncheon of the Waco Automobile Dealers and Accessory Men's association was held yesterday at the Raleigh in the gold room. Several matters of importance were taken up for discussion and disposed of by the members present. An unusually full representation of the membership was in attendance.

A resolution was introduced and adopted creating a board of directors, empowered to transact such business as may come up when it is impracticable to call a meeting of the entire body. The directors chosen by vote of the association are President Percy Willis, Secretary E. F. Zarr, D. C. Ryburn, Jack Spencer, J. B. Fisher, J. C. Killgore, Jess Wilbanks, T. D. Humphrey and W. E. Brown.

A report of a subcommittee was adopted giving the secretary of the association a salary of \$10 a month for his services.

After considerable discussion the suggestion of President Willis that the association promote a series of "social uns" and "automobile trade trips" was adopted in modified form. It was decided to hold the first auto trade trip next Thursday, and a committee, consisting of Harry Smith, F. C. De Cordova and J. B. Fisher, was appointed to select a route and schedule for the run and make all arrangements for lunch, etc.

This is expected to be but the first of a series of such trips to help in the development of the trade territory of Waco and promote a closer relationship between people in the country and nearby towns and Waco. It is also expected to have a beneficial effect on the automobile and accessory business of Waco.

Traces of copper are found over almost one-third of the area of Chile.

On suggestion of J. M. The plan is to push the matter to a complete and successful issue next week. Also it was decided, by unanimous vote, on motion of J. M. F. E. Goodman suggested that there are many persons in the country who will aid in taking stock, and it was decided to give special attention to farmers and others in the various sections and towns in the country, to traveling men, railroad men, outside property owners and others. A committee was appointed to take up the matter with non-resident property owners, this committee consisting of G. H. Penland and W. W. Naman.

Wesley Mann of Robinson and General Freight and Passenger Agent J. F. Lehane of the Cotton Belt were mentioned as recent and liberal subscribers to stock in the movement. PETTICOATS AS SCREEN FOR MEN WHO ASKED WAR

So Says 72-Year-old Veteran at Waxahachie Demonstration Friday.

Special to the News.

Waxahachie, April 6.—Five thousand people assembled at Getzendaner park tonight in patriotic demonstration. The band played "America." Veterans of the Civil war, Spanish-American war and young men ready to give their service to their nation with one accord endorsed the action of President Wilson and congress in declaring that a state of war exists and is declared. Such a patriotic outburst was never before seen in Waxahachie. Forming a parade at the public school building, more than 1,500 automobiles, with two abreast, paraded the streets, while thousands of people stood on the sidewalks and looked on.

The following loyalty program was rendered: Judge F. L. Hawkins, presiding, Getzendaner park, 7:15 p. m.: "Dixie," by band; "Our President," Judge W. M. Tidwell; song, "My Country, 'Tis of Thee;" "Our Country," John D. McRae; "Star-Spangled Banner," band; "Spring of '61-'65," B. P. Marchbanks; "Our Flag," Mrs. L. D. Parnell.

A cheer went up when B. F. Marchbanks, veteran of the Civil war, declared that "it was a shame to send the young men who were the seed of the nation, while men who clamored so long and loud for war hid behind the petticoats of their wives." He declared that, though he was 77 years old, he was ready and would gladly join a Ford brigade that would answer every call.

Perhaps never has such a patriotic outburst been given here since the days of '61, when Ellis county sent a whole regiment to fight for the cause of the South. It was announced tonight that the Trinity infantry company would volunteer their services with the first call for volunteers.

The Cookies that took me back to California

(Report No. 3) By a Native Daughter

It happened in my condensed little New York kitchen, with just room for the gas range, sink, table, ice-box, cupboards—and me.

I had promised a few friends a treat—cookies!

Because I wanted crisp cookies, I used wholesome Cottolene—two-thirds cup—with this new recipe:

2 cups sugar
2 eggs
1 teaspoon soda
1 cup buttermilk

1 teaspoon salt
Flour
Caraway seeds
Raisins

Soon I was mighty busy pulling those crisp wafers out of the hot oven.

Then I tasted. The first bite took me back under the old plum tree in California. Maybe it was a cherry tree—anyway, there I was. Over the fence leaned the plump next-door lady. She was giving "us children" cookies. And here I was, way off in New York, tasting them again—the same cookies.

Perhaps you had a plump next-door lady? Maybe you'd

like to travel backward a few years to some loved spot? Well—"open your mouth and shut your eyes." And after you've tasted these wholesome Cottolene cookies I'm sure you'll say, "Please give me your recipe. I'm going to make cookies, too, today."

If you use this recipe—and Cottolene—you'll have crispy, wholesome, "remember" cookies. And you'll have them often.

From L. G. S.

ANTICIPATE ADVANCE.
Special to the News.
McGregor, April 6.—The farmers of the Comanche Springs community express the opinion that farm products are now high enough, but in view of the fact that the United States will necessarily be drawn on heavily in supplying other warring nations, together with her own military home demands, prices will no doubt remain high and make other advances.

R. Burleson, one of the postal employees, says he hears outspoken opinions of both higher and lower prices on food products and wearing apparel in the event of our war engagements, yet he is unable to figure through such an experience without higher prices.

G. W. Lee, speaking from his extensive agricultural and mercantile experiences, thinks none but high and higher prices confront us on practically all products from the farm and also manufacturing and building materials until war requirements and demands at home and abroad are satisfied.

J. E. Brown Jr. reports an after-rain fair prospect for small grain on the ranch and counts on record breaking prices this year for wheat, oats and

corn and for even yet higher prices on beef cattle and hogs. He considers cotton the cheapest commodity, in comparison, on the list of markets and believes it will advance to its relative position's worth.

LOUISIANA CASE OF SUGAR MEN IS CONCLUDED
Total of 189 Suits Disposed of at New Orleans Yesterday Afternoon.

By Associated Press.
New Orleans, La., April 6.—Settlement of the 189 suits brought by Louisiana planters against the American Sugar Refining company under the Sherman anti-trust law in November, 1913, and which sought treble damages totalling \$163,000,000, was effected here late today at a conference of officials of the sugar company and representatives of the planters and cane growers.

The announcement issued by the conference did not state the amount of money the company agreed to pay the planters, but persons interested stated the amount was between \$600,000 and \$700,000.

Earl D. Pabst, president of the sugar company; Donaldson Caffery, representing the plaintiffs, and L. M. Pool of New Orleans, representing a planters' and growers' committee, were among the principal factors in the conference which brought about the settlement. Certain trade regulations agreeable to both refiners and planters were decided upon and the company will establish a trade laboratory here along the lines of the one operated in New York.

Settlement of these suits, it was stated, brings to an end virtually all the litigation against the American Sugar company pending in state and federal courts here for several years. Negotiations for withdrawal of the ouster suit of the state of Louisiana were started some time ago.

In the suits just settled the planters charged the sugar company was operating as an illegal combination in restraint of trade and alleged unfair methods and price fixing.

COME-BACK AT
KATY BY 3-2Win Over Gasser Aggrega-
tion Yesterday—Other
League Results.

Skipper Hardy's Navigators staged a narrow come-back yesterday afternoon when Duffy, pitching for the visitors, walked eight, allowed seven hits and three runs. The Gassers scored one run with eight hits and no walks.

The game was anybody's until the finish was made. The home team started well, owing to the wildness of Smith's young pitcher. Miller drew a walk, Leslie sacrificed, advancing Miller to second, and James received the second walk for the first inning. Tanner was thrown out on first. The first score was registered for the Naves in the second frame when Malmquist walked and scored on Vann's two-bagger.

That Third Frame.

In the third frame, after Wotell had singled, Leslie took first on Smith's error and Tanner drew a first-base pass. Conwell struck out, as did Malmquist, but the crowd seemed to be dissatisfied with the decision of the ump. In Malmquist's case. In the fourth inning Duffy walked two out of three at bat, however, Blunk was thrown out at second and Miller caught when he tried to steal home. The Naves second score came in the sixth when Blunk scored off Wotell's single.

Shreveport went out one, two, three for the first three innings of the game and one, two, three, four for the next two frames. In the sixth, three more faced the batter to retire without reaching first, but in the seventh, Tullos scored on Cain's single, after having advanced to third on Smith and Diamond's infield grounders. The other counter for the visitors was registered in the eighth, when Duffy hit for two stations, advanced to third on Becker's single and scored on a clean single by Tullos.

Hits One Thousand.

Wotell hit a thousand during the contest, hitting a sacrifice in the first, a single in the third, fourth and sixth, and walking in the eighth. However, part of this record was marred because of the hit-and-run policy which the big Tar pursued, which spoiled a perfectly good opportunity for a counter, when Mike ran up on Vann at second in the sixth. JAIL PROBE IS RESULT OF JURY INVESTIGATION

Grand Jury Flays Conditions
at Bastile and Asks
Reforms.

Clean sweeping, painstaking with every detail probed, and submitting a graphic report on the county jail conditions, the McLennan county grand jury adjourned yesterday afternoon until May 7. With a record of accomplishing more in the past twenty-five days than any other McLennan county grand jury, a grand total of 162 indictments were returned.

It is advised in the report that drastic measures be taken at once to alleviate the miserable conditions of the county jail and that all insane prisoners be turned over to the state institutions. The report in part follows:

Conditions Unbearable.

"The grand jury visited the jail in a body and reports that a number of insane men and women, some of them so violent that they had to be kept in separate cells, were found. It is advised that these prisoners be turned over to the state institutions. We find that some of these prisoners have been in jail for years, the institutions being unable to accommodate them. Unbearable conditions as to congestion were found throughout the prison. In one instance twenty white prisoners were in a compartment that was not large enough for ten, forty-two negroes were crowded into a room so small that they could not sit down during the day. A large number of these unfortunates are young men and women, and although they are criminals, humanity demands that they be given better treatment.

"Due to the crowded condition, the law requiring separate compartments for juveniles cannot be complied with and in consequence young offenders are seldom locked up. We find that the sheriff is doing the best he can under the present conditions and all of the prisoners express thorough satisfaction as to the treatment received from him and his deputies."

Report on Junk Dealers.

A statement was made by the jury that evidence had been found of junk dealers buying stolen property, in several instances making a specialty of this class of trade. It was claimed that such action caused many boys and grown men to become thieves and the investigators suggested a special officer be appointed to watch all junk shops for stolen property.

Dallas Guard in Waco on Way to War Camps

A special train of seven cars, bearing members of the Dallas national guard southward, passed through Waco at 1 o'clock yesterday afternoon.

Also yesterday morning early there passed through the city special trains in two sections. The first section carried troops from Sulphur Springs, Hillsboro, Sherman and Dallas. A second section yesterday morning carried cannon, supply wagons and general equipment.

Artesian Water in Waco Within 10 Days—Fulkerson

It was predicted yesterday by Secretary-Manager E. L. Fulkerson of the Waco city waterworks that the new artesian well will have been completed within ten days.

"I am hoping for a flow of 1,000,000 gallons a day from this well," said Mr. Fulkerson yesterday. "The other well near the filtration plant, a six-inch one, is flowing 500,000 gallons a day; the new one will be eight inches in diameter at the bottom."

Bishop Kinsolving Will Preach at St. Paul's Church

Waco will have a visit Sunday from Bishop George H. Kinsolving of Austin. Bishop Kinsolving will preach at St. Paul's Episcopal church Sunday morning at 11 o'clock, and will confirm a class at that church. There will be services, stated Rector W. P. Witsell yesterday, three times at St. Paul's Sunday. The first service will be at 7:30 in the morning of that day, the next at 11 o'clock, and a special Easter carol service will be held at 4 in the afternoon.

Red Cross Opens Monday, Formal Announcement

The formal opening of the Waco Red Cross headquarters will take place Monday night in the Cameron building on Austin street, near Seventh. President W. W. Seelye thinks the event will be signalized by a large attendance. There will be suitable addresses and the exercises will be interesting.

News Finds Typewriter for Owner Who Lost It

A publication in the Morning News, which was authorized by Detective R. H. Hall of the Waco police department, brought back a typewriter which had been stolen from the office of Pat M. Neff.

The typewriter, an Underwood, was bought by Fenny Crump of Waco for \$10. Mr. Crump told his brother, who lives in the country, about the bargain he had found, and the brother mentioned it to his wife, who had seen the publication in The News. This brought about the return of the typewriter to Neff & Taylor. Mr. Crump at once returned it.

The man who stole the machine is under surveillance in another city, and his arrest is expected soon.

long trip up the Brazos river and its chief tributaries. A. D. Jackson joins them today. It is expected they will be absent a week, possibly longer.

LENT IN SPRINGTIME.**

Possibly you are one of the thousands who just at this season find that you are losing your appetite, your system gets weaker day by day, you are easily tired, and a general good-for-nothing, run-down feeling seems to pervade your whole body.

This condition is very general at the beginning of Spring, and is nature's appeal for help in preparing the system for the change in seasons. Your blood is sluggish and impoverished, impurities begin to clog up the arteries, and your system needs a general purifying

and housecleaning to put it in ship-shape for the coming summer.

Just now the best investment you can make is to take a few bottles of S. S. S., the great blood purifier and tonic. This purely vegetable remedy has been in general use for more than fifty years, and thousands use it regularly every Spring. It has no equal for thoroughly cleansing the blood of all impurities, improving the appetite and toning up and giving renewed life and vigor to the whole body.
